Chairwoman's Letter to Shareholders

1 September 2021 to 31 August 2022

Dear Shareholder,

I am writing to update you on the activities of BlackRock Global Funds ('BGF') over the twelve months to 31 August 2022. The BGF range comprised 99 Funds (each a "Fund", together the "Funds") as at 31 August 2022.

The impact of the coronavirus outbreak was profound across all aspects of society. In developed economies, it is clear that the worst of the impact is now over. However, there is an expectation that seasonal peaks and new variants could give rise to renewed travel restrictions, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery and supply chain disruptions, which will create ongoing challenges. Widescale and comprehensive vaccination programmes have been put in place in many countries which have had a positive effect. Nevertheless, the impact of COVID-19 continues to adversely affect the economies of many nations across the globe and this in turn may continue to impact investments held by each Fund.

Russia's invasion of Ukraine at the end of February, meanwhile, has only served to exacerbate the inflationary pressures and supply chain challenges that accompanied the later stages of the COVID-19 pandemic. Aside from the significant humanitarian costs, the sanctions imposed by Western nations on Russia at the start of the conflict have led to serious issues around energy supplies, to Europe in particular, and more widespread disruption of global trade. Both Russia and Ukraine are important commodities producers: Russia is among the world's largest exporters of oil, gas and coal, while Ukraine is a significant agricultural exporter, particularly for wheat. Fighting in and around Ukraine's Black Sea ports has severely curtailed the country's ability to export produce. On 1 March 2022, due to the significant investment exposure of the BGF Emerging Europe Fund (for the purposes of the remainder of this paragraph, the "Fund") to Russia, the Board of Directors took the decision to temporarily suspend subscriptions and redemptions and conversion of all share classes and the determination of net asset values, pursuant to the Fund's discretion under the prospectus. At 31 August 2022, valuation, subscriptions and redemptions in the Fund remain suspended until further notice. For further details see Note 1 to the Financial Statements.

Rising demand and loss of supplies from Russia sent oil and gas prices soaring in the spring of 2022 : in March and again in June, the price of a barrel of Brent crude oil exceeded US$120, while natural gas prices in major European markets have reached all-time highs. As energy prices have risen, so too have production and transportation costs around the world, intensifying the inflationary pressures which were seen towards the end of 2021. The annual inflation rate in the US hit 9.1% in June, its highest level in more than 40 years, while price rises hit 8.9% in the Eurozone in July. In the UK, prices were 9.4% higher in June 2022 than a year earlier.

Central banks have responded to rising inflation by withdrawing the stimulus measures introduced at the start of the COVID-19 pandemic and increasing interest rates. The Federal Reserve raised rates in March, May, June, July and September. The European Central Bank increased interest rates for the first time in more than a decade in July and then again in September and October, while the Bank of England continued the rate-raising programme it had begun in late 2021. Increases were also seen in a number of other countries, including in emerging markets.

These were not the only headwinds facing the global economy: China's 'zero-COVID' policy resulted in further lockdowns in major cities, including Beijing and Shanghai. These measures resulted in a drop in production in China and served also to create further problems for international trade.

Rising prices and interest rates, as well as ongoing supply chain issues, have raised fears that the world could be facing another recession. Indeed, the US economy contracted in both the first and second quarters of 2022. In its World Economic Outlook Update, published in July, the International Monetary Fund ("IMF") revised its forecast for global growth lower, to 2.7% in 2022 compared with 6.1% in 2021. The IMF added that the risks to this outlook were "overwhelmingly tilted to the downside" due to the conflict in Ukraine, the possibility of debt distress being induced in emerging market economies, and the possibility of further COVID-19 outbreaks, among other factors.

The increasingly challenging economic conditions were reflected in highly volatile stock-market performance throughout the period, with a number of major indexes entering bear-market territory – defined as a fall of 20% or more from recent peaks – over the course of the first half of the year. Positive data from the US jobs market and strong company earnings performance in July helped markets recover some of their losses, but volatility returned in August due to concerns about further interest rate hikes.

Fixed-income assets offered little in the way of a safe haven for investors, with the US 10-year treasury yield rising from around 1.5% at the end of November to a peak of almost 3.5% in June. When yields rise, bond prices drop and investors saw significant capital losses. Higher-quality corporate bonds have been similarly weak, with prices falling more sharply compared with government bonds.

The assets under management ("AUM") in the BGF range fell 24% from USD209.6 billion to USD158.7 billion over the period, with weakness in bonds and equities across all markets. The only significant areas of strength were specific sectors, such as energy, commodities, and mining.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairwoman's Letter to Shareholders

1 September 2021 to 31 August 2022 continued

The weakest areas were in emerging markets, particularly Eastern Europe. Assets in the Emerging Europe Fund dropped from EUR758.9 million to EUR161.2 million : due to the suspension of the Fund as noted above. Emerging Markets Equity Income Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund and Emerging Markets Local Currency Bond Fund all shed assets over the period, with only the Emerging Markets Impact Bond Fund and Emerging Markets Sustainable Equity Fund showing a rise in assets.

Assets in the ESG Multi-Asset Fund rose 88% to EUR6.72 billion, while the Natural Resources Growth & Income Fund grew 121%, as commodities and energy price rises attracted investors.

In contrast, some of the areas that have seen significant growth in recent years shed assets. The Next Generation Technology Fund dropped 54% to USD2.76 billion, while the Global Corporate Bond Fund dropped 44% to USD801.9 million. The US Growth Fund dropped 48% to USD310.9 million.

Regulatory change continued throughout Europe and a number of these future changes could have implications for investors. Key changes included:

- The European Union's new Sustainable Finance Disclosure Regulation ("SFDR") came into effect in March 2021. It imposes new transparency and reporting obligations on investment management firms, both at a firm-wide level and at a product level. Certain parts of the framework were finalised in 2022 and will come into effect at the start of 2023. At the same time, the EU is working on an EU-wide classification system or 'framework'. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. There are also moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") currently in discussions. The Luxembourg government recently took further steps to encourage investment in environmentally sustainable funds, reducing the 'taxe d'abonnement' (subscription tax) for funds that meet certain environmental criteria.

- From 1 January 2023, the extended PRIIPs regulation will bring significant changes for the fund industry, which had previously benefitted from an exemption. UCITS KIIDs will be replaced with the stricter revised PRIIPs KIDs' requirements. Changes will include the way risks, performance scenarios, and transaction costs are calculated.

Investment Adviser's Report
Performance overview

1 September 2021 to 31 August 2022

Market Review

The threat of tighter monetary policy in the later months of 2021 had already led to higher levels of concern and January saw the first major sell-off of 2022 as investors reappraised valuations in the highly rated technology sector in particular. Asset volatility only increased in the subsequent months as the scale and potential ramifications of the Ukraine crisis became apparent.

Energy and commodities were the stand-out performers during the early months of 2022. As commodity prices rose, energy giants delivered huge profits to the extent that national governments started to consider windfall taxes. By the end of August, the MSCI World Select Natural Resources index had returned more than 14% for the year so far compared with a near 18% loss for the MSCI World Equity index.

As central banks started to raise interest rates in response to soaring inflation, investors grew increasingly worried about the threat of recession: indeed, some policymakers argued a downturn in growth may be necessary in order to rein in spiralling prices.

For much of 2022, the weak spot has been technology and growth stocks, with January's sell-off followed by further sharp declines in April. After a long period during which strong earnings had continued to propel share prices in the technology sector higher, there was some weakness in reported first-quarter results. Adoption in areas such as e-commerce and streaming services slowed as life returned to normal following the COVID-19 pandemic and investors adjusted expectations. At the same time, inflation and rising bond yields reduced the present value of the long-term cash flows offered by many high-growth technology companies. Solid company results and a smattering of positive economic data in July helped markets recover some losses, but risk-off sentiment (risk sentiment characterised by investors reducing their exposure to risky investments such as equities and and focusing on protecting their capital by investing into less risky investments such as bonds) returned in August as investors awaited further interest-rate hikes in the autumn.

Commercial property and infrastructure assets in general performed relatively well, with their cash flows better able to adjust to rising prices. It was a better period for defensive, dividend-based investment strategies as investors increasingly prioritised cash flows today over future revenues. Any remaining restrictions on bank dividends were lifted during the period and relatively strong corporate earnings allowed companies to return cash to investors once again.

In general, regional differences were not as strong as sector differences and losses were spread evenly around global markets, in both developed and emerging economies. The UK market performed relatively well in the period, as a result of its large number of energy and mining companies.

Environmental, social and governance ("ESG") continued to be an important consideration even if ESG-aware funds could not replicate their significant success in 2021. While many 'green' companies were beneficiaries of the drive from governments to put sustainability at the heart of their post-pandemic rebuilding plans, 2022 has been a far stronger period for conventional energy producers.

As monetary policy tightened, meanwhile, it was a dismal period for bond markets, which have traditionally been a safe haven during times of stock-market turbulence. US 10-year Treasury yields, which move inversely to prices, rose from 1.8% at the start of the period to almost 3.5% by mid-June, before falling back on hopes the Federal Reserve might slow the pace of interest-rate rises.

Fund Performance

A table setting out the performance returns for the primary share class for each Fund versus any applicable benchmark may be found on pages 10 to 14. A brief summary of Fund performance follows.

Performance data stated is for the main (A) share class of the relevant Fund, stated in the base currency of the Fund, net of fees.

Equity Fund Performance

The Global Equity Income Fund dropped 13.92%, outperforming its benchmark, the MSCI All Country World Net TR Index, which dropped 15.88%. The more growth-focused Global Dynamic Equity Fund fell 17.55%, behind its benchmark (60% S&P 500 / 40% FTSE World Ex-US Index), which dropped 14.13%.

Shares of small and medium sized companies were weak as investors retreated to safe havens. The Systematic Global SmallCap Fund fell 17.01%, just ahead of its benchmark, the MSCI AC World Small Cap, which fell 18.73%.

Of the individual country funds, the Japan Small & MidCap Opportunities Fund fell 8.17%, behind the S&P Japan Mid Small Cap Index, which fell 0.54%. The Swiss Small & MidCap Opportunities Fund fell 26.83%, behind its benchmark, the SPI Extra Index, which fell 23.00%.

The Continental European Flexible Fund fell 25.28%, significantly behind its benchmark, the FTSE World Europe ex UK Index, which fell by 12.18%. The European Fund fell 23.09% against the MSCI Europe Index, which fell 7.93%. The European Equity Income Fund fell 8.81% against the same benchmark. The European Focus Fund fell 23.39%, while the European Special Situations Fund fell by 24.01%. Both are also benchmarked to the MSCI Europe Index.

The US Growth Fund fell 31.69%, behind the Russell 1000 Growth Index, which fell by 19.06%. The US Basic Value Fund fell by 4.84%, ahead of the Russell 1000 Value Index, which fell 6.23% over the period.

The Japan Flexible Equity Fund fell 4.61%, behind the MSCI Japan Index, which rose 2.26%.

Performance across Asia and emerging markets funds dipped as China's economy weakened and COVID lockdowns continued. The Asian Growth Leaders Fund fell 26.44%, behind

The information stated in this report is historical and not necessarily indicative of future performance.

its benchmark, the MSCI All Country Asia ex Japan Index, which fell 21.73%. The Asian Dragon Fund dipped 21.32%, just ahead of its benchmark, which dropped 21.73%.

The India Fund fell 8.80%, behind its MSCI India Index benchmark, which fell 2.96%. The Emerging Markets Fund, which has a more broad exposure across the emerging markets investment universe, fell 30.94%, behind its benchmark, the MSCI Emerging Markets Index, which was down 21.80%. The Emerging Markets Equity Income Fund, which shares the same benchmark, was down 26.47%. The Latin American Fund fell 10.09%, behind its benchmark, the MSCI Emerging Markets Latin America Index, which fell 7.03%.

In natural resources, the World Energy Fund benefitted from higher energy prices, rising 54.65%, ahead of its benchmark, the MSCI World Energy 10/40 Index (Net) (USD), which rose 52.02% over the period. The World Mining Fund fell 12.04% outperforming its benchmark, the MSCI ACWI Metals and Mining 30% Buffer 10/40 Index, which fell by 18.50%. The World Gold Fund fell 30.54%, behind its benchmark, the FTSE Gold Mines Index, which fell 29.38%.

The World Technology Fund fell 34.99% against a fall of 21.03% in the MSCI All Country World Information Technology Index. The Nutrition Fund fell 22.26% over the period, while the Future Of Transport Fund fell 20.96% and the Fintech Fund dropped 43.07%. None of these specialist funds have a benchmark.

Mixed Asset Fund Performance

The diversified Global Allocation Fund – which invests in a mixture of fixed income securities, equities and cash – fell 15.79%, behind its reference benchmark, which fell 14.80% (the benchmark comprises 36% S&P 500 Index, 24% FTSE World Index (Ex-US) Index, 24% BofA ML Cur 5-Yr US Treasury Index, 16% FTSE Non-USD World Government Bond Index).

The Global Multi-Asset Income Fund fell 12.09% over the period. The Fund combines the ability to allocate actively across a full range of asset classes and geographies at a top-down level with a focus on adding value through bottom-up security selection by specialist teams in each key asset class. The Fund does not have a benchmark.

Fixed Income Fund Performance

The Global Government Bond Fund fell 12.20%, behind its benchmark, the FTSE World Government Bond USD Hedged Index, which fell 10.73%. The Euro Bond Fund fell 15.34%, compared to a fall of 14.41% for its benchmark, Bloomberg Euro Aggregate 500mm+ Bond Index. The Global Corporate Bond Fund fell 14.97%, compared to a fall of 13.58% for its benchmark, the Barclays Global Aggregate Corporate Bond USD Hedged Index.

The Euro Corporate Bond Fund fell by 14.41%, while its benchmark, the BofA Merrill Lynch Euro Corporate Index, fell by 13.18%. The Euro Short Duration Bond Fund fell 5.46%. The Fund has no benchmark.

The Global High Yield Bond Fund fell 13.14%, behind its benchmark, the BofA Merrill Lynch Global High Yield Constrained USD Hedged Index, which fell 12.71%. The Fixed Income Global Opportunities Fund fell 6.21%, while the Sustainable Fixed Income Global Opportunities Fund fell 8.63%. Neither of the fixed income global funds have a benchmark.

Outlook

While the world economy's recovery from the COVID-19 crisis was not expected to be plain sailing, 2022 has delivered an array of challenges far beyond what had been forecast in 2021. The pandemic has left a difficult legacy of high government debt, supply-chain problems and rising inflation, and these problems have been compounded by the crisis in Ukraine, with high commodity and energy prices weighing on households and businesses across the world.

Developed markets have been forced to adjust to an evolving fiscal and monetary policy environment. Fiscal stimulus, low interest rates and quantitative easing provided considerable support through the pandemic but support has now largely been withdrawn. Growth rates are already slowing and there are fears a number of major economies will tip into recession by 2023.

Central banks have made it clear they see inflation as a greater risk to prosperity than low growth and have continued to pursue aggressive rate rises: these are expected to continue over the rest of the year, if not beyond. Taming inflation has seldom been achieved without consequences for the global economy and central banks are threading a precarious path: it is not yet clear that policymakers can achieve the 'soft landing' they desire.

This creates significant uncertainty in terms of the growth outlook. There are already signs that economic activity is under pressure and governments have started to revise their gross domestic product ("GDP") forecasts lower. A prolonged downturn has the power to destabilise markets in the year ahead and will certainly affect the type of sectors that do well.

However, markets have fallen substantially so far this year and the corporate sector has remained reasonably resilient. This has left valuations looking more attractive. Undoubtedly, there are companies that can weather this storm and do well in spite of any looming economic weakness. Equally, higher bond yields have left fixed income looking better value than it has done for some time. Ultimately, while there are undoubtedly challenges in the months ahead, so too will opportunities emerge.

Investment Adviser's Report
Performance overview

1 September 2021 to 31 August 2022 continued

Environmental, social and governance (″ESG″) policy
Included in the performance return table are the Funds which promote environmental or social characteristics ("Article 8 Funds") or have sustainable investments as an objective ("Article 9 Funds"), under the EU Sustainable Finance Disclosure Regulation ("SFDR"). Further detail around how Article 8 Funds have achieved these characteristics and objectives is included in the SFDR review section of this Investment Adviser's Report for the period under review.

The Technical Screening Criteria ("TSC") of the EU Taxonomy Regulation ("Taxonomy") were only finalised on 9 December 2021 (i.e., in respect of the first two Taxonomy environmental objectives of climate change mitigation and climate change adaptation) or have not yet been developed (i.e., for the other four Taxonomy environmental objectives). These detailed criteria require the availability of multiple, specific data points regarding each investment. During the reporting period, there was insufficient reliable, timely and verifiable data available for the Investment Adviser to be able to assess investments using the TSC.

In addition, the Regulatory Technical Standards ("RTS") under the SFDR, which define the methodology for the calculation of the share of environmentally sustainable investments and the templates for these disclosures are not yet in force. During the reporting period, the Investment Adviser was not able to provide standardised and comparable disclosures on the Taxonomy alignments of the Funds.

While there may be investments held by each Fund that are in economic activities that contribute to an environmental objective and may be eligible to be assessed against the TSC, the Investment Adviser is not currently in a position to describe:

- the extent to which the investments of each Fund are in economic activities that quality as environmentally sustainable and are aligned with the Taxonomy Regulation;
- the proportion, as a percentage of each Fund's portfolios, of investments in environmentally sustainable economic activities which are aligned with the Taxonomy Regulation; or
- the proportion, as a percentage of each Funds' portfolios, of enabling and transitional activities (as described in the Taxonomy Regulation).

The Investment Adviser is keeping this situation under active review and where, in its discretion, it has assessed that it has sufficient reliable, timely and verifiable data on each Fund's investments, the Investment Adviser will provide the descriptions referred to above, in which case the Fund's Prospectus or the relevant supplement will be updated. For further information please refer to: https://www.blackrock.com/corporate/literature/prospectus/eu-taxonomy.pdf

For any other Funds that do not meet the SFDR criteria for Article 8 or 9 Funds, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Disclosed in the table below are the performance returns for the A Class Non-Distributing Share Class for each Fund, net of fees and expenses, which has been selected as a representative Share Class. Performance returns for any other Share Class can be made available on request.

Calculation methodology is based on industry standards.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of an investment and the income from it will vary and the initial investment amount cannot be guaranteed. The Fund invests a large portion of assets which are denominated in currencies other than US dollar; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current Prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements form an integral part, as well as Key Investor Information Documents (KIIDs). Copies are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors. The BGF range is only available for investment by non-US persons. It is not offered for sale or sold in the US, its territories or possessions.

Investment Adviser's Report
Performance overview

1 September 2021 to 31 August 2022 continued

FinTech Fund
Swiss Small & MidCap Opportunities Fund
World Financials Fund
World Healthscience Fund
World Technology Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the application of exclusionary screens based on certain environmental and social related characteristics. In addition, the Investment Adviser conducted enhanced analysis on all companies that it considers to have heightened ESG risks, higher carbon emissions and controversial business activities. In such circumstances, the Investment Adviser determined an engagement agenda for discussion with those companies which sought to improve their ESG credentials. To undertake this analysis, the Investment Adviser used its fundamental insights methodology, including data provided by external ESG data providers, and proprietary models. Further details are outlined in the prospectus. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

China Innovation Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Investment Adviser sought for the Fund to have a lower carbon emissions intensity score versus its benchmark as defined in the prospectus, and the Fund was at least 90% invested in developed market issuers of securities and at least 75% invested in emerging market issuers of securities that were ESG rated or have been analysed for ESG purposes. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Sustainable Asian Bond Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Fund was at least 90% invested in issuers of securities that were ESG rated or have been analysed for ESG purposes and at least 20% invested in "green bonds", "sustainable bonds" and "social bonds" (each as defined by its corresponding proprietary methodology which is guided by the International Capital Markets Association Green Bond, Sustainable Bond and Social Bond Principles, respectively). The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

ESG Flex Choice Cautious Fund
ESG Flex Choice Growth Fund
ESG Flex Choice Moderate Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the Funds investing at least 80% of their total assets in CIS which pursued a positive ESG objective or outcome, or, in the case of government bond exposures, tracked benchmark indices incorporating ESG requirements or comprised of bonds issued by governments that had an ESG sovereign rating of at least BB (as defined by third party ESG data vendors), and in both cases being CIS with status aligned with the SFDR, in particular with the requirements set out under Article 8 or 9 of the SFDR. In addition, the Investment Adviser sought for the Funds to have a 20% lower carbon emissions intensity score versus the benchmark as defined in the prospectus. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

ESG Global Conservative Income Fund
ESG Global Multi-Asset Income Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Fund's investments included companies that have a positive contribution to people and the planet across themes including, but not limited to, affordable housing, education and skilling, financial and digital inclusion, public health, safety and security, efficiency, electrification and digitalisation, green energy, pollution remediation and prevention, sustainable food, water and waste. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

The information stated in this report is historical and not necessarily indicative of future performance.

ESG Multi-Asset Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of baseline screens based on certain environmental and social related characteristics. The Fund adopted a "best in class" approach to sustainable investing, which means that the Fund selected the best issuers (from an ESG perspective) for each relevant sector of activities. In addition, the Fund was at least 90% invested in issuers of securities that were ESG rated or have been analysed for ESG purposes and the Investment Adviser excluded any issuer with a MSCI ESG rating below BBB. Further details are outlined in the prospectus. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

European High Yield Bond Fund
Global High Yield Bond Fund
US Dollar High Yield Bond Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Investment Adviser monitored issuers with lower ESG ratings and flagged controversies according to third party data providers. The Investment Adviser then conducted enhanced analysis on such issuers through a 'watchlist' to identify relevant ESG related information that was not reflected in the third party data analysis and to determine an engagement agenda for discussion with those issuers who sought to improve their ESG credentials. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Future Consumer Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Investment Adviser sought for the Fund to have a lower carbon emissions intensity score versus its benchmark as defined in the prospectus, and the Fund was at least 80% invested in equity securities of companies globally that are expected to benefit from changes in the way people consume goods and services globally. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Next Generation Health Care Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Investment Adviser sought for the Fund to have a lower carbon emissions intensity score versus its benchmark as defined in the prospectus, and the Fund was at least 80% invested in equity securities of companies globally that are involved with new and emerging themes in health care. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Next Generation Technology Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of exclusionary screens based on certain environmental and social related characteristics. Companies were evaluated by the Investment Adviser based on their ability to manage the risks and opportunities associated with ESG factors and their ability to strategically manage longer-term issues surrounding ESG. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Sustainable Global Bond Income Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the application of baseline screens based on certain environmental and social related characteristics. In addition, the Investment Adviser sought to enhance exposure to investments that were deemed to have associated positive externalities (e.g. lower carbon emitting issuers and issuers with positive ESG credentials) and sought to limit exposure to investments that were deemed to have associated negative externalities including limiting direct investment in securities

of issuers involved in the ownership or operation of gambling related activities or facilities, production, supply and mining activities related to nuclear power and production of adult entertainment materials. Further details are outlined in the prospectus. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Sustainable Global Infrastructure Fund

From the date the Fund met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Fund were met through the application of a custom ESG screen which incorporated multiple components. A screen was used to limit or exclude direct investment (as applicable) in corporate issuers which, in the opinion of the Investment Adviser: had any exposure to, or ties with, controversial weapons or conventional weapons; the production, distribution, licensing, retail or supply of tobacco or tobacco-related products; the production or distribution of firearms or small arms ammunitions intended for retail civilians; were deemed to have failed to comply with one or more of the ten United Nation Global Compact Principles ("UNGC"), which cover human rights, labour standards, the environment and anti-corruption. In addition, the Investment Adviser sought to limit direct investment in securities of issuers involved in the extraction of, or the generation of power using, thermal coal or tar sands (also known as oil sands) and screened the investment universe to invest only in companies that align with and advance at least one of the UN Sustainable Development Goals ("SDG"). The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Systematic China A-Share Opportunities Fund
Systematic Multi Allocation Credit Fund

From the date the Funds met the criteria for an Article 8 Fund to 31 August 2022, the environmental and social characteristics being promoted by the Funds were met through the application of baseline screens based on certain environmental and social related characteristics. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus.

Article 9 Funds

China Impact Fund

From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the sustainable investment objective being promoted by the Fund was met through the Fund's investments in equity securities of companies whose goods and services sought to address China's social and environmental problems and through the application of exclusionary screens based on certain environmental and social related characteristics. The Investment Adviser sought to deliver a superior ESG outcome and have a lower carbon emissions intensity score for the Fund versus its benchmark as defined in the prospectus, and the Fund was at least 90% invested in issuers of securities (excluding MMFs) that were ESG rated or have been analysed for ESG purposes.

From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the Fund was 99% invested in companies that have an impact on people and the planet (the "Impact Categories") across themes including, but not limited to, affordable housing, education and skilling, financial and digital inclusion, public health, safety and security, efficiency, electrification and digitalisation, green energy, pollution remediation and prevention, sustainable food, water and waste.

All holdings within the Fund were deemed to do no significant harm to environmental or social factors, as determined by the Investment Adviser. The Investment Adviser assesses this according to an internal methodology (as amended from time to time) which considers a representative sub-set of principal adverse sustainability impact indicators. The Investment Adviser remains satisfied that the underlying investments in companies continue to maintain the good governance criteria set out in the prospectus. Further information is outlined in the prospectus.

Circular Economy Fund

From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the sustainable investment objective being promoted by the Fund was met through the Fund's investments in the equity securities of companies globally that benefit from, or contribute to, the advancement of the "Circular Economy". The Circular Economy concept recognises the importance of a sustainable economic system and represents an alternative economic model to the default "make-use-throw away" approach of consumption, which is believed to be unsustainable given scarce resources and the rising cost of managing waste. The Circular Economy concept also promotes the redesign of products and systems to minimise waste and to enable greater recycling and reuse of materials. In addition, the Fund was at least 90% invested in issuers of securities that were ESG rated or have been analysed for ESG purposes.

The information stated in this report is historical and not necessarily indicative of future performance.

The Fund adopted a "best in class" approach to sustainable investing. This means that the Fund selects the best issuers (from an ESG perspective) for each relevant sector of activities (without excluding any sector of activities). From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the Fund had a weighted average ESG rating of 7.59 compared with its benchmark as defined in the prospectus which had a weighted average ESG rating of 5.49.

All holdings within the Fund were deemed to do no significant harm to environmental or social factors, as determined by the Investment Adviser. The Investment Adviser assesses this according to an internal methodology (as amended from time to time) which considers a representative sub-set of principal adverse sustainability impact indicators. Climate Action Multi-Asset Fund

From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the sustainable investment objective being promoted by the Fund was met through the Fund's investments in issuers globally that were expected to enable, and/or benefit from, the transition to a lower greenhouse gas emissions economy and to net zero carbon emissions and through the application of exclusionary screens based on certain environmental and social related characteristics. In addition, the Investment Adviser intended the Fund to incorporate a year on year decarbonisation rate. The Fund was at least 90% invested in issuers of securities (excluding MMFs) that were ESG rated or have been analysed for ESG purposes.

The Fund was focused on issuers that are driving the reduction of greenhouse gases across all segments of the market and that provide solutions for the mitigation and/or adaptation of climate change, change risk or which are in the process of making their business models more resilient to the long-term risks presented by climate change and resource depletion across multiple sub-themes driven by the climate action theme, including (without limitation) the following: clean power, resource efficiency, sustainable nutrition, biodiversity and clean transport. From the date the Fund met the criteria for an Article 9 Fund to 31 August 2022, the Fund had a weighted average ESG rating of 7.06 compared with its benchmark as defined in the prospectus which had a weighted average ESG rating of 6.41.

All Funds – Taxonomy disclaimer

The EU Taxonomy Regulation ("Taxonomy") establishes a framework for defining "technical screening criteria" ("TSC") which set out the conditions that an economic activity has to meet in order to qualify as environmentally sustainable. The TSC for two of the Taxonomy Regulation environmental objectives, climate change mitigation and climate change adaptation, were finalized in December 2021, while the TSC for the other four objectives are not yet in force . Assessment of investments against the TSC requires the availability of multiple, specific data points.

During the reporting period, 0% of the Funds' investments were aligned with EU Taxonomy as there was insufficient reliable, timely and verifiable data available for the Investment Adviser to be able to assess each of the Fund's investments using the TSC.

Corporate Governance Statement

Introduction

BlackRock Global Funds (the "Company") is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010, as amended from time to time and is regulated pursuant to such law. The Company complies with the principles set out in the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct Revision 2022 (the "Code") issued by ALFI in June 2022.

The Board of Directors of the Company (the "Board") is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Company's affairs. The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes is appropriate for adherence to the principals of the Code given the nature of its structure as an Investment Company. The Board considers that the Company has been in compliance with the principles of the Code for the year ended 31 August 2022.

This statement summarises the corporate governance structure and processes in place for the Company for the period under review from 1 September 2021 to 31 August 2022.

Board Composition

The Board currently consists of 6 non-executive Directors, (including 2 independent Directors). The Board is committed to maintaining an appropriate balance of skills, experience, independence, and knowledge amongst its members.

The Directors' biographies, on pages 23 and 24, collectively demonstrate a breadth of investment knowledge and experience, business and financial skills and legal and regulatory familiarity which enables them to provide effective strategic leadership, oversight, and proper governance of the Company. The Board are looking to add one further Director and BlackRock considers this to be a suitable and appropriate balance for the Board.

Article 13 of the Company's Articles of Incorporation in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected. Any Director who resigns his/her position is obliged to confirm to the Board and the CSSF that the resignation is not connected with any issues with or claims against the Company.

The Board supports a planned and progressive renewal of the Board. BlackRock is committed to ensuring that Directors put forward for election by the shareholders possess the skills needed to maintain this balance. The Board is committed to carrying out an annual review of its performance and activities.

The Directors have a continuing obligation to ensure they have sufficient time to discharge their duties. The details of each Director's (including the Chairwoman), other appointments and commitments are made available to the Board and the BlackRock Group for inspection.

Before a new Director is proposed to the shareholders for appointment, he or she will receive a full induction incorporating relevant information regarding the Company and his or her duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of BlackRock so that the new Director will become familiar with the various processes which are considered necessary for the proper performance of his or her duties and responsibilities to the Company.

The Company's policy is to encourage Directors to keep up to date with developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by BlackRock entities. The Directors also receive regular briefings from, amongst others, the auditors, investment strategists, risk specialists, depositary and legal advisers regarding any proposed product developments or changes in laws or regulations that could affect the Company.

Board's Responsibilities

The Board meets at least quarterly and also on an ad hoc basis as required. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The Board is responsible for the long-term success of the Company and recognises its responsibility to provide leadership, direction, and control to the Company within a framework of prudent and effective controls which enables risk to be assessed and managed. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, entering into any material contracts, any change in board membership, any change of external auditor, the prosecution defence or settlement of litigation which is material or significant to the Company and any significant change in accounting policies or practices. The Board also approves the prospectus and any addenda to it, circulars to shareholders, financial statements and other relevant legal documentation.

The Chairperson's main responsibility is to lead and manage the Board, encourage critical discussions and promote effective communication within the Board. In addition, they are responsible for promoting best practice corporate governance and effective communication with shareholders.

The Directors have access to the advice and services of external counsel, the resources of the BlackRock Group and BlackRock (Luxembourg) S.A. (the "Management Company") should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice. The Board has responsibility for ensuring that the Company keeps proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and which enable it to ensure that the financial statements comply with relevant accounting standards. It is the Board's responsibility to present a balanced and understandable assessment of the Company's financial position, which extends to interim financial statements and other

reports made available to shareholders and the public. The Board is responsible for taking reasonable steps for safeguarding the assets of the Company and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

Insurance
The Company maintains appropriate Directors' and Officers' liability insurance cover.

Delegation of Responsibilities
As an open-ended variable capital investment company most of the Company's day-to-day management and administration is delegated to BlackRock Group companies such as the Management Company which employs dedicated compliance and risk professionals. The Management Company appoints the Investment Advisers and other third-party service providers. The Board has delegated the following areas of responsibility:

Management and Administration

The Board has delegated the investment management, administration, marketing & distribution of the Company and its Funds to the Management Company. The Company has appointed The Bank of New York Mellon SA / NV, Luxembourg Branch ("BNYM") as Depositary of its assets, which has responsibility for safe-keeping of such assets, pursuant to the regulations. The Depositary is a subsidiary of The Bank of New York Mellon Corporation.

The Management Company has delegated the management of the investment portfolio to the Investment Advisers. The Investment Advisers operate under guidelines determined by the Board and as detailed in the Company's prospectus relating to the Company's Funds. The relevant Investment Advisers have direct responsibility for the decisions relating to the day-to-day running of the Company's Funds and are accountable to the Management Company for the investment performance of the Funds. The Board has also delegated the exercise of voting rights attaching to the securities held in the portfolio to the respective Investment Advisers who may in turn delegate to BlackRock Investment Management (U.K.) Limited ("BIM UK"). Voting on behalf of shareholders is done in a manner which is believed to be in the best economic interest of shareholders as long-term investors.

The Management Company has delegated its responsibilities for administrative services of the Company and its Funds to The Bank of New York Mellon SA / NV, Luxembourg Branch ("the Administrator"). The Administrator has responsibility for the administration of the Company's affairs including the calculation of the net asset value and preparation of the financial statements of the Company, subject to the overall supervision of the Management Company. The Administrator is a subsidiary of The Bank of New York Mellon Corporation. The Management Company has delegated transfer agent and share registration services to J.P. Morgan Bank Luxembourg S.A

The Management Company has delegated distribution, promotion and marketing of the Shares and related ongoing administration and marketing to BIM UK as Principal Distributor. As Principal Distributor BIM UK have responsibility for the offer for sale of, promotion and marketing of shares in any fund. BIM UK is accountable to the Management Company for the distribution and marketing of the Shares.

The Management company is accountable to the Board for all activities delegated to it or by it, including, but not limited to those detailed above.

The Management Company reports to the Board on a quarterly basis and by exception where necessary. Reporting is in place to ensure that the Board can effectively oversee the actions of its delegates.

The Management Company is responsible for the risk management and internal controls of the Company and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable, and for regularly monitoring compliance with regulations governing the operation of the Company. The Management Company reviews the effectiveness of the internal control and risk management systems on an ongoing basis to identify, evaluate and manage the Company's significant risks. As part of that process, there are procedures designed to capture and evaluate any failings or weaknesses. Should a case be categorised by the Board as significant, procedures exist to ensure that necessary action is taken to remedy the failings.

The control processes over the risks identified, covering financial, operational, compliance and risk management, is embedded in the operations of the BlackRock Group and the Management Company. There is a monitoring and reporting process to review these controls, which has been in place throughout the period under review and up to the date of this report, carried out by BlackRock's corporate audit department.

BlackRock's internal audit and operational risk units report to the Board through the Management Company on a quarterly basis. The Management Company also receives a report from the Administrator and the Depositary on the internal controls of the administrative and custodial operations of the Company. The Board recognises that these control systems can only be designed to manage rather than eliminate the risk of failure to achieve fund objectives, and to provide reasonable, but not absolute, assurance against material misstatement or loss, and relies on the operating controls established by the service providers.

Financial Reporting
The Board is also responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Custodian. The financial statements are prepared in accordance with applicable law and Generally Accepted Accounting Principles ("GAAP") and are approved by the Board of Directors

NM1222U-2648461-24/1130

of the Company. The accounting information given in the annual report is required to be audited and the Audit report, including any qualifications, is reproduced in full in the annual report of the Company.

Remuneration

The Company is an investment company and has no employees or executive Directors. No Director (past or present) has any entitlement to a pension from the Company, and the Company has not awarded any share options or long-term performance incentives. No element of Directors' remuneration is performance related. Those Directors who are also employees of the BlackRock Group are not entitled to receive a Director's fee. All other Directors are paid fees which are submitted for approval by the shareholders at the annual general meeting and are disclosed on page 1015. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the responsibility of the Director and their time commitment. The Board believe the fees to be fair and appropriate given the size, complexity and the range of funds under management. The maximum amount of remuneration payable to the Directors is approved by the Board.

Communication with Shareholders

The Board is responsible for convening the annual general meeting and all other general meetings of the Company. Shareholders are encouraged to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Articles of Incorporation of the Company and notice of the annual general meeting is sent out at least 8 days in advance of the meeting. All substantive matters put before a general meeting are dealt with by way of separate resolution. Proxy voting figures are noted by the chairwoman of the general meeting.

The next Annual General Meeting of Shareholders will be held on 17 February 2023 and shareholders will be asked to consider the usual matters presented at such meeting including:

- Approval of the financial statements & the payment of dividends
- The approval of Directors fees
- The election or re-election of directors
- The election or re-election of the auditor
- The discharge of Directors duties – this resolution is required under Luxembourg law and the discharge is only valid where the financial statements contain no omission or false information concealing the real financial situation of the Company. The discharge is granted based on the facts disclosed and the information at the disposal of the shareholders at the time of the Annual General Meeting.

The proceedings of general meetings are governed by the Articles of Incorporation of the Company.

BIM UK as Principal Distributor is tasked with managing the relationship between the Company and its shareholders and the Board has controls in place such that it is advised of shareholder complaints.

Report on Remuneration

The below disclosures are made in respect of the remuneration policies of the BlackRock Group ("BlackRock"), as they apply to BlackRock (Luxembourg) S.A. (the "Management Company"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority.

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the European Economic Area ("EEA") entities within the BlackRock Group authorised as a management company of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive, and to UK entities within the BlackRock Group authorised as a manager of a UK UCITS fund in accordance with the UK version of the Directive.

The Management Company has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for Blackrock, Inc. and (b) the Management Company's Board of Directors (the "Management Company's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
  - BlackRock's executive compensation programmes;
  - BlackRock's employee benefit plans; and
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing, and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "Blackrock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all of the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 8 meetings during 2021. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Management Company's Board

The Management Company's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Management Company and its Identified Staff.

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for compensation decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of Blackrock's financial performance (e.g., net inflows of Assets Under Management ("AUM") and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Management Company.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock, Inc.'s stock as a significant part of both annual and long-term incentive awards:
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business;
- promote sound and effective risk management across all risk categories, including sustainability risk;
- discouraging excessive risk-taking (sustainability related or otherwise); and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Management Companies use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Management Company, the funds managed by the Management Company and/or the relevant functional department:
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

NM1222U-2648461-28/1130

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc's stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc's share price over the vesting period. As total annual compensation increases, a greater portion is deferred in stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests in equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select senior leader individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin[(1)] and Organic Revenue Growth[(2)]. Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve predetermined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the relevant employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Management Company, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction.

Quantitative Remuneration Disclosure

The Management Company is required under the Directive to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Management Company (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Company, including individuals who, although not directly employed by the Management Company, are assigned by their employer to carry out services directly for the Management Company.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Company is included in the aggregate figures disclosed.

(1) As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.

(2) Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in US dollars).

Members of staff and senior management of the Management Company typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Management Company and across the broader BlackRock Group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Management Company according to an objective apportionment methodology which acknowledges the multiple service nature of the Management Company. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Management Company to its staff which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2021 is USD 150.73 million. This figure is comprised of fixed remuneration of USD 13.62 million and variable remuneration of USD 137.11 million. There was a total of 163 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Management Company, which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2021, to its senior management was USD 0.35 million, and to other members of its staff whose actions have a material impact on the risk profile of the Fund was USD 150.38 million.
